Will it fit? The three rules

- A soft bag loses depth, never height. The back panel and the straps fix it, so pack the top third loose.
- Sizers measure the bag **as packed**. A rigid 43 cm bag is 3 cm too tall whatever the label says.
- Test at home in a cardboard box cut to the inside of the sizer, then weigh it on a bathroom scale.

Fast conversions

- 40 × 30 × 20 cm = 15.7 × 11.8 × 7.9 in
- 55 × 40 × 23 cm = 21.7 × 15.7 × 9.1 in
- 22 × 14 × 9 in = 56 × 36 × 23 cm
- 7 kg = 15.4 lb, 8 kg = 17.6 lb, 10 kg = 22 lb

Reuse it freely, a link back is all we ask.
